Production – Rigour - Security

Catalogue De Prestation

# PROGRAM:

**3** General Presentation ACTI-DRILLING

**4** Type of Drillings (Water well Drilling & Mining Drilling)

**11** Plumbing and Installation

**14** Domains of application on mining exploration

**22** Intervention in various exploration projects

**23** Different teams (Worskshops)

**25** Partners

**26** Philosophy safety

## General Presentation ACTI-DRILLING

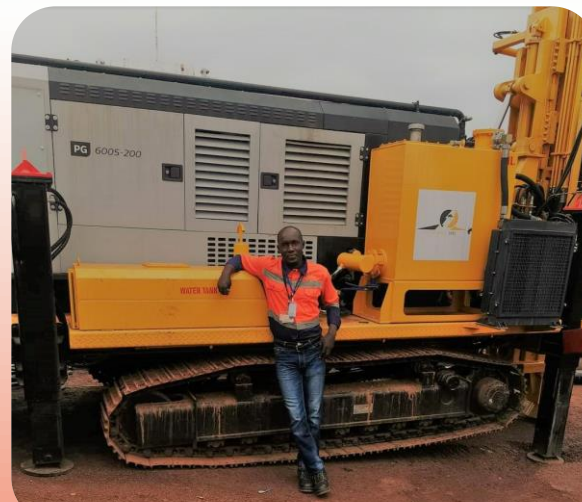

**ACTI-Drilling** is a guinean company whose head office is located in **Siguiri** in the Republic from **Guinea**, specialized and experienced in drilling mining works, equipped with all the equipment, means and skills, in particular human, technical, financial and administrative, necessary to the perfect execution of the works for the strict respect of the standards in force, in particular safety and hygiene, environment, in accordance with the rules of the arts and the specifications.

It is also evolving field: of Horizontal drilling; Verticals; Inclined Water supply; Installation of castles waters; Solar pumps; Electric and manual pumps; layout and supply of drilling equipment.

Nowadays **ACTI-Drilling** is representative in all the major gold mining companies in operation and also in other companies in the exploration phases.

**MANAGING DIRECTOR**

**Production – Rigour - Security**

# ADMINISTRATION

Oumar CISSE  
Co-founder

Aboubacar Cheick TRAORE  
Chief Executive Officer (MD)

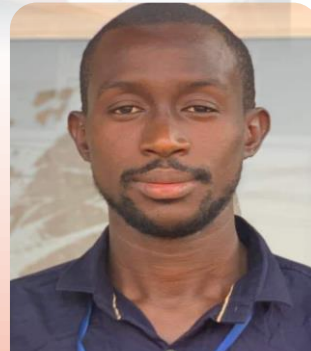

Alpha Kabinet DOUMBOUYA  
TECHNICAL DIRECTOR

Bakaye CONDE  
General Supervisor

Fatoumata CONDE  
Secretary General

Mamady KABA  
General Accountant

Sidiki CAMARA  
HRD

Daouda CAMARA  
SAFETY MANAGER

*Production – Rigour - Security*

# Head of Antenna

Raphael SAGNO  
Head of Antenna  
LERO

Mouctar KABA  
Head of Antenna  
CONAKRY

Alpha Oumar KEÏTA  
Head of Antenna  
LOÏLA

Sekou Mamadi CAMARA  
Head of Antenna  
KOUROUSSA

Amadou DIAKITE  
Head of Antenne  
KANKAN

# Maintenance and Logistic

Mamadou PORGO  
Garage and fuel Manager

Madou BERETE  
Logistic Manager

Mamady Doumbouya  
Maintenance Manager

Alassane YAO  
Head of Plumbers

## Type of Drilling (Water well Drilling & Mining Drilling)

The Various Drilling in which ACTI-Drilling operates

Water well Drilling

Mining Drilling

**Water well Drilling**

**Verticals Drilling**

**Pit Weep Hole Drilling**

**Water well Drilling of Mining &  
Water well Drilling for domestic  
use**

ACTI-FORAGE SARL

## Water well Drilling for domestic use (Small diameter)

Intervene in the context of solving water problems: in communities, hospitals, schools, households, fields...

*Production – Rigour - Security*

# Water well Drilling for domestic use (Small diameter)

***Production – Rigour - Security***

## Water well Drilling (Dewatering) of Mining

**Dewatering big diameter hole :**  
is a vertical drilling allowing the dewatering of the layers in the mines

**Piezometers hole:**  
is a vertical drilling allows the dynamic level of groundwater in the mines

**Pilot hole:**  
is a vertical drilling methodology that can be transformed into borehole because of its hydraulic flow

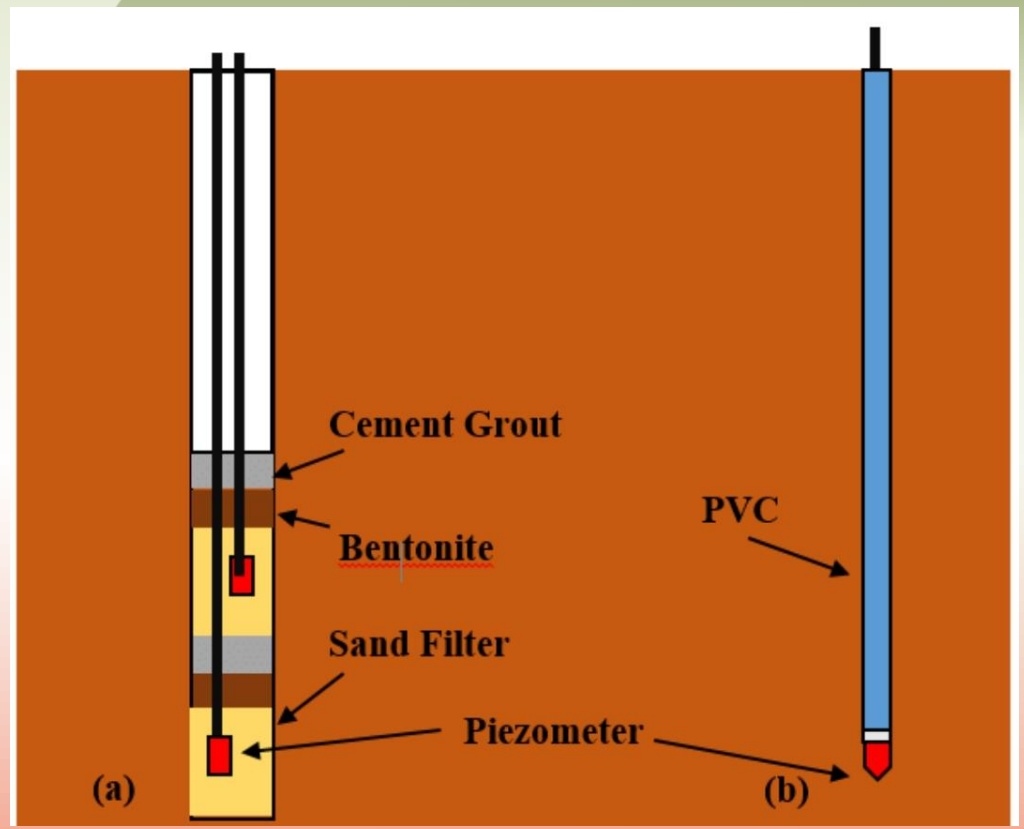

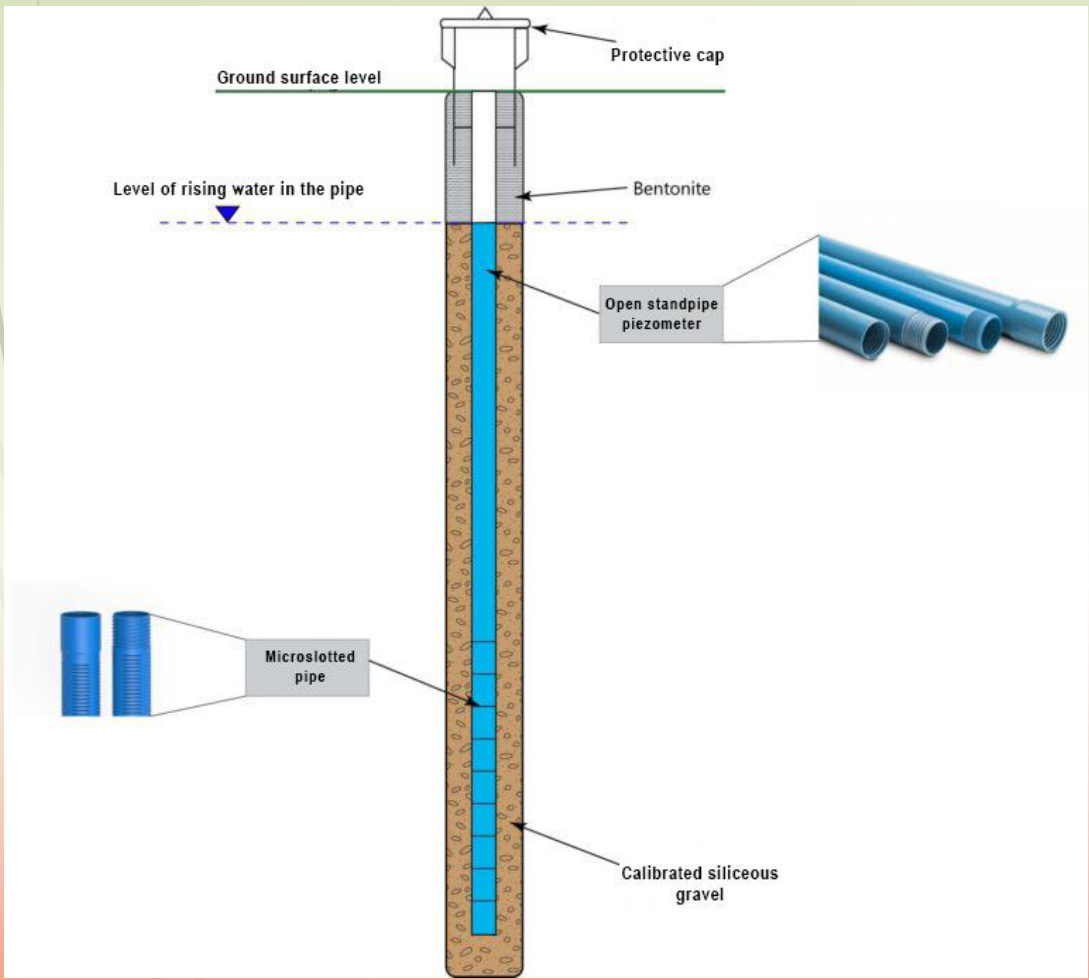

**Dewatering big diameter hole :**  
is a vertical drilling allowing the dewatering of  
the layers in the mines

**Production – Rigour - Security**

**Piezometers hole:**  
is a vertical drilling allows the dynamic level of groundwater in the mines

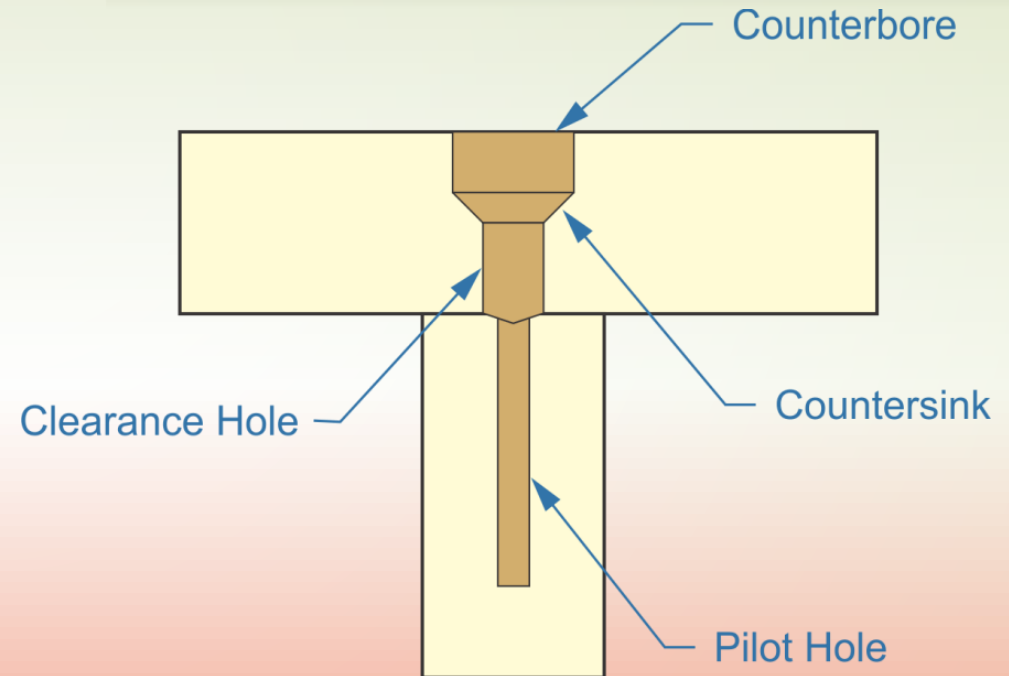

*Production – Rigour - Security*

**Pilot hole:**  
is a vertical drilling methodology that can be transformed into borehole because of its hydraulic flow

because of its hydraulic flow

# Pit Weep Hole Drilling

Which makes it possible to intercept the layers horizontally

*Production – Rigour - Security*

## Plumbing and installation

Solar pumps; Electric and manual pumps, also installation Borehole for dewatering and the polyethylene pipes HDPE.

ACTI-FORAGE SARL

## Plumbing and installation

*Production – Rigour - Security*

# Plumbing and installation

**Production – Rigour - Security**

## Domains of application on mining exploration

### Mining Drilling

Auger Drilling  
(aspiral)

Blasting hole

RC Drilling

DD (Diamond) core  
Drilling

*Production – Rigour - Security*

## Auger Drilling (aspiral)

(aspiral)

They give us indications of the mineralization at a depth ranging from.

## Blasting hole

They help drill the blasting holes for mining

**Production – Rigour - Security**

## Air core drilling

Air core drilling is used to look for geological information at depth. It helps to determine the quantity and extent of potential gold mineralisation.

## DD (Diamond) core Drilling

Which allows the drill sample to move through the inner tube as it.

- **NQ** carrot exploration
- **HQ** carrot exploration
- **PQ** carrot exploration

# RC Drilling

ACTI-Drilling focuses on customer satisfaction with the results given below by the drilling:

The quality of the samples

Accuracy of the following data:

- The angle of inclination (DIP)
- The direction (Azimuths of direction)
- The deviation measuring device of the canadian origin mark (REFLEX-IDEMS)

Dynamic teams that can work without relaxation in order to satisfy the customer

# RC DRILLING

*Production – Rigour - Security*

ACTI-FORAGE SARL

# RC DRILLING

*Production – Rigour - Security*

## Intervention in various exploration projects

Exploration projects of which ACTI-Drilling is part:

- **SANU GOLD CORPORATION:** 5000 M Drilled
- **HYDROMIN INTERNATIONNAL:** 5600 M Drilled per month
- **MANAGEM GROUP:** 6000 M Drilled per month

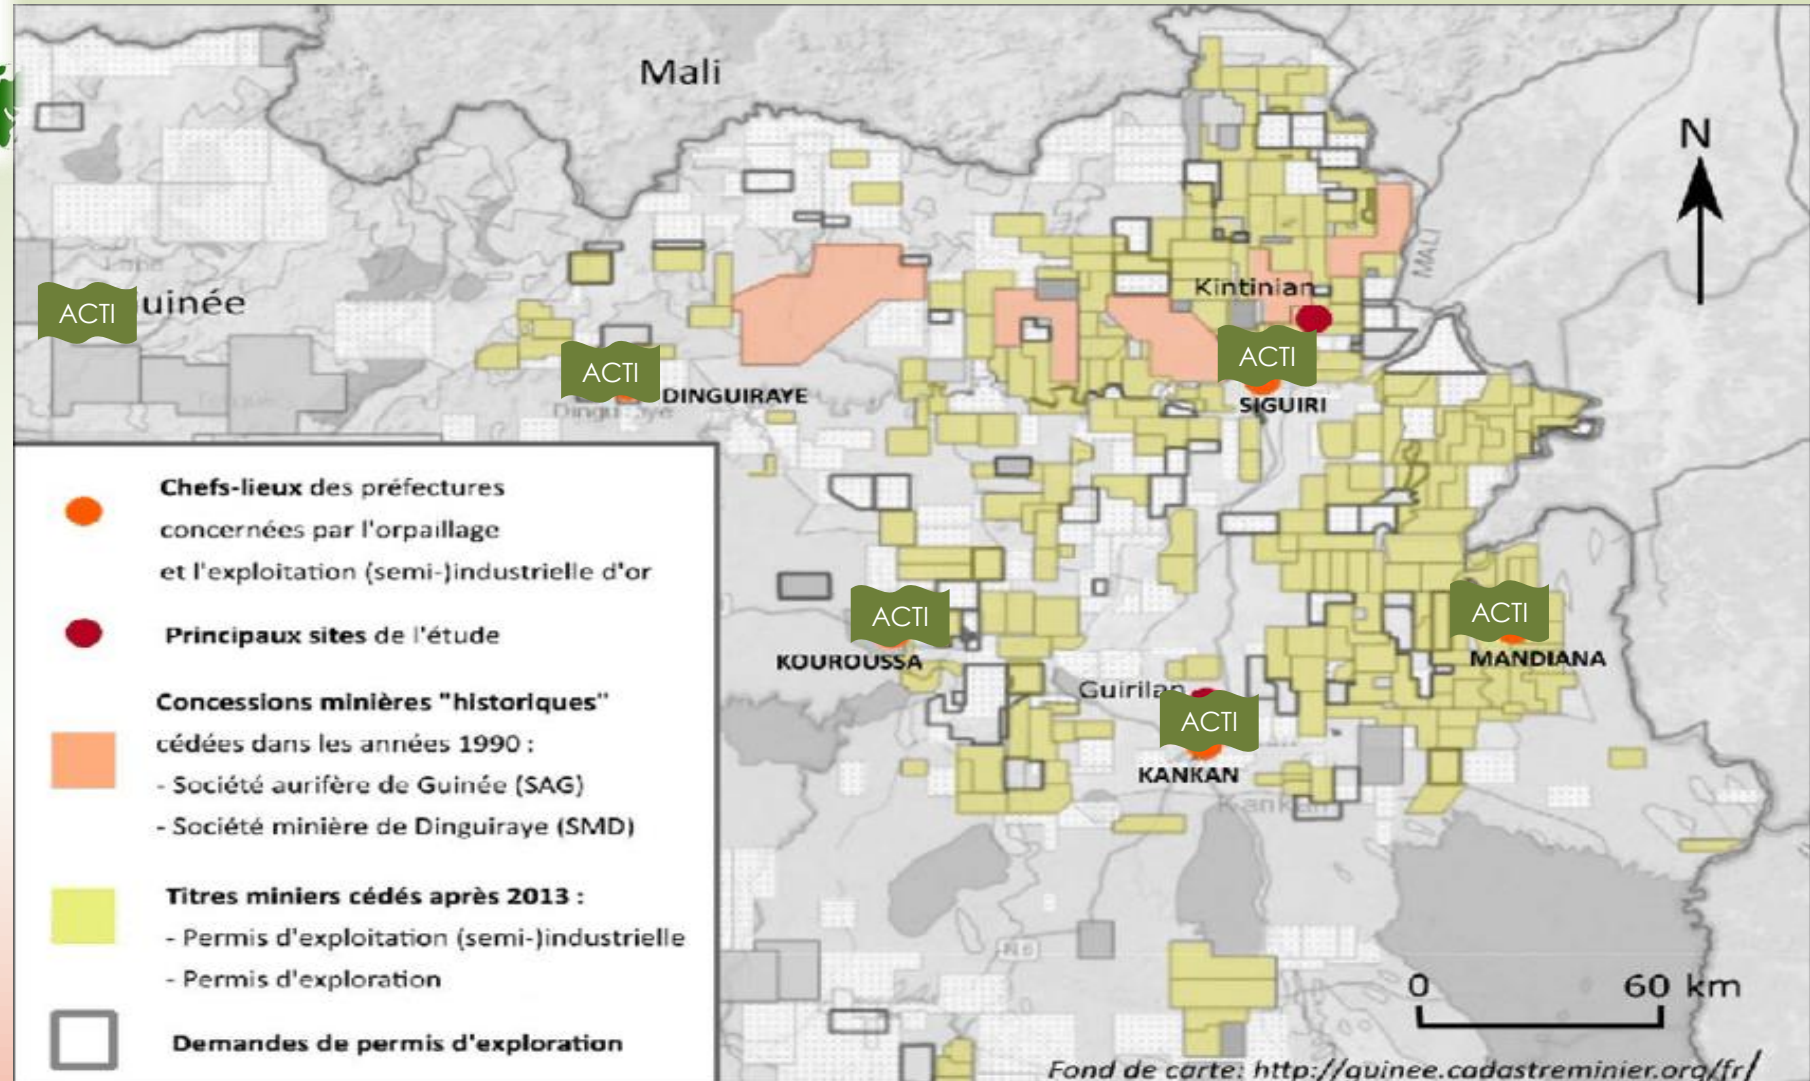

## Different teams (Workshops)

- Administration
- TEAM of AIR-FORCE ONE (Borehole and Weephole)
- TEAM of ETALON (domestic, pilot and piezometric drilling)
- TEAM of VIKING (RC, DD, GC drilling)
  - TEAM of PLOMBIER
  - TEAM of SOUDEUR
  - TEAM of MECANICIEN
  - TEAM of ELECTRICIEN
- TEAM of DELTA-FORCE (Blasting hole, Augure and drilling Geochemistry)

ACTI-FORAGE SARL

Production – Rigour - Security

# ACTI-DRILLING

## Partners

- **SAG:** Siguiiri city-SAG 45km by car, speed 80 to 60km/h
- **SMM:** Siguiiri city-Loïla 167km at 4h04min from car, speed 100 to 60km/h.
- **SMD:** Siguiiri city-Léro 139km at 3h56min from car, speed 100 to 60km/h.
- **KGM:** Siguiiri city-Kouroussa 212KM AT 4H20min from car, 100 TO 60km/h

## Philosophy safety

As it was said, safety is our priority then we want:

- Zero accidents
- Zero incident for the whole team.
- Safety is everyone's responsibility.

# Safety meeting

*Production – Rigour - Security*

We wish to thank you for the enquiry and taking the time to answer the above questionnaire.

ACTI-Drilling is available at your convenience to answer any question you may have.

Please direct any further communication to the managers listed below.
